WORKSHOP AND B2B MEETING
AMMAN, 6th December 2016
at Grand Millennium Hotel

COGEMAT S.R.L.

Sectors of interest during the workshop in Amman are :

- **HALAL SLAUGHTERING EQUIPMENT**
- **slaughtering systems, engineering and construction**

Website site: www.cogemat.it

COMPANY PROFILE

Cogemat was founded in 1988, also thanks to Gioacchino Arena's experience matured exclusively in the specific field of the design and installation of slaughter plants (in fact, the company celebrated 40 years of activity in 2012).

Being one of the most important European companies in this sector, Cogemat has always paid particular attention to the application of the EC laws and directives regarding slaughtering lines and meat processing, not only earning the reputation of being "the number one" among all Italian producers, but also, at the end of the 90's, becoming the leader in this field, thanks to the quantity of invoiced plants and importance of the worldwide installed slaughtering systems.

In addition to the installations connected to slaughterhouses, such as hot water and steam generators, refrigerating plants, air compressed plants etc., Cogemat designs and installs deboning lines, meat processing lines, and other type of equipment or plant required in the "meat" field.

Siciliani S.p.A. Industria Lavorazione Carne

Sectors of interest during the workshop in Amman are:

➤ **Rearing and slaughtering of meat**

Create international agreements for the marketing and processing of the meat with local distributors

Website site: www.sicilianispa.it

COMPANY PROFILE

Siciliani Spa has been the leader in the meat industry for over 50 years. By following strict production regulations and establishing their own supply chain of veal and beef, they offer a unique and high quality product. The plant covers an area of over 20.000 square meters, and was built using the industry's most modern technologies. The slaughterhouse of about 8.000 square meters, is one of few to be fitted out with three different slaughter lines.

The capability of the staff, the speed of execution of sub-sectioning and the automation of the packaging and labelling processes, are essential in preparing to sell carcass halves and cuts of the highest quality. Over 1000 square meters for the production of freshly ground meat, burgers, skewered meats and sausages. Finally, a modern system of freezing for burgers and processed meats, also places Siciliani spa in the frozen meat sector.

Always attentive to the needs of different markets, the plant is even equipped to perform ritual slaughter. A meticulous logistical organisation ensures an efficient distribution service both in Italy and abroad.
